The Town allows small-scale offices on principal arteries only. The Town discourages uses which would detract from the desired residential character, consume large amounts of land, or otherwise interfere with the intent of this Bylaw.

The predominant land uses in the Medium-Density Apartment District consist of a mix of apartments up to ~~four~~ five stories high and offices at a smaller scale. The Town discourages uses which would detract from the desired residential and office character or otherwise interfere with the intent of this Bylaw.

ARTICLE 18

ZONING BYLAW AMENDMENT/FLOODPLAIN DISTRICT

To see if the Town will vote to amend the Zoning Bylaw to update the Floodplain District regulations by amending SECTION 5.7 FLOODPLAIN DISTRICT by making minor corrections to the bylaw in order to be consistent with the Conservation Commission's Town of Arlington Bylaw for Wetland Protection and other associated regulations; or take any action related thereto.

(Inserted at the request of the Redevelopment Board)

Amend SECTION 5.7 FLOODPLAIN DISTRICT to make minor corrections:

5.7 FLOODPLAIN DISTRICT

5.7.1 Purpose

The purpose of Section 5.7 is to:

- A. Protect the health and safety of the occupants of lands subject to seasonal or periodic flooding in the Mill Brook, Alewife Brook, Mystic River, and Mystic Lakes floodplain, as shown on the zoning overlay map of the Town of Arlington.
- B. Prevent the reduction of the water-carrying capacity of streams, brooks, rivers, and drainage courses by prohibiting the destruction or alteration of their natural character, and by preventing encroachment by future development, both public and private, in the floodway. A floodway includes the normal channel of a river or stream and those portions of the floodplains adjoining the normal channel which are reasonably required to carry off the flood flow.
- C. Preserve the natural flood control characteristics and the water storage capacity of the floodplain.
- D. Protect the public from hazard and loss through the regulation of future development of lands adjoining such watercourses.
- E. Protect the safety and purity of water; control and containment of sewage; safety of gas, electric, fuel, telecommunications, and other utilities from breaking, leaking, short-circuiting, grounding, igniting, electrocuting or any other dangers due to flooding.

5.7.2 Boundaries

The Floodplain District is herein established as an overlay district. The District includes all special flood hazard areas within the Town of Arlington designated a Zone A, AE and X on the Middlesex County Flood Insurance Rate Map (FIRM) issued by the Federal Emergency Management Agency (FEMA) for the administration of the National Flood Insurance Program (NDIP). The map panels of the Middlesex County FIRM that are wholly or partially within the Town of Arlington include the following panel numbers: 25017C0412E, 25017C0416E, 25017C0419E, dated June 4, 2010 (Scale 1"=500'). The exact boundaries of the District may be defined by the 1% annual (100 year flood) base flood elevations shown on the FIRM and further defined by the Middlesex County Flood Insurance Study (FIS) report dated June 4, 2010. Said boundary, so determined, shall be presumed accurate. This presumption may be overcome only by credible evidence from a registered professional engineer or other professional competent in such matters. The FIRM and FIS report are incorporated herein by reference and are on file with the Department of Planning and Community Development and Conservation Commission.

5.7.3 Applicability

- A. Any proposed use, structure, development, filling, grading, or excavation within the Floodplain District shall be governed by all regulations of this Section 5.7, G.L. c. 131, § 40, ~~Wetlands~~

The purpose of Section 3.5 is to provide for reasonable regulation of religious, non-profit educational, and child care facilities used primarily for such purposes consistent with G.L. c. 40A, §3. Specifically, reasonable regulation refers to the bulk and height of structures and in determining yard sizes, lot area, setbacks, open space, parking, and building coverage requirements. When applying reasonable regulation, the Town shall not unreasonably impede the protected use without appreciably advancing the goals of the Arlington Master Plan or other development plans and policies of the Town.

3.5.2 Procedures

- A. Building Inspector Review: To determine whether a religious, non-profit educational, or child care facility use is protected under G.L. c. 40A, §3, the property owner or agent of an owner

shall submit to the Building Inspector such information necessary to make the following findings:

- (1) That the applicant has sufficiently demonstrated that the proposed use of the property or structures is for a religious, non-profit educational, or child care purpose, or appropriate combination thereof; and
- (2) That the applicant has sufficiently demonstrated that the proposed use of the property or structure for these purposes is the principal use.

B. Arlington Redevelopment Board Review: If the applicant has satisfied the Building Inspector per Section 3.5.2.A., the Building Inspector shall inform the Redevelopment Board that a given application is appropriate for administrative review for the purposes set forth in Section 3.5.1. The Redevelopment Board shall apply those requirements allowed by G.L. c. 40A, §3, in a reasonable fashion within the specific context of the proposed project as an administrative permitting process with the following responsibilities:

- (1) The applicant bears the burden of establishing that the application of a given regulation should be waived, reduced, or altered as unreasonable within the specific facts of both the site and the proposed use; and
- (2) The Arlington Redevelopment Board bears the burden of applying only those regulations in accordance with the goals of the Arlington Master Plan or other development plans and policies of the Town.
- (3) The Arlington Redevelopment Board shall issue an administrative decision setting forth only those conditions allowed by G.L. c. 40A, §3, within 90 days of receipt of the application from the Building Inspector unless an extension of time is agreed upon by the parties, but in any case, shall not withhold approval under this administrative review section.

3.5.3 Appeal

An appeal to the Board of Appeals or the Arlington Redevelopment Board may be taken by any person aggrieved due to the determination of the Building Inspector or the Department, as provided in G.L. c. 40A, § 8 and § 15. An appeal of the decision of the Arlington Redevelopment Board may be made as set forth in G.L. c. 40A, §17 to a court of competent jurisdiction.

ZONING BYLAW AMENDMENT/BICYCLE PARKING

To see if the Town will vote to amend the Zoning Bylaw to update the bicycle parking standards by amending SECTION 6.1.12. BICYCLE PARKING to remove and replace the section in its entirety; or take any action related thereto.

(Inserted at the request of the Redevelopment Board)

Amend the Zoning Bylaw to update the bicycle parking standards by amending SECTION 6.1.12. BICYCLE PARKING to remove and replace the section in its entirety:

6.1.12 Bicycle Parking

- A. ~~Bicycle parking spaces shall be provided for any development subject to Section 3.4, Environmental Design Review and any use requiring eight or more vehicle parking spaces under Section 6.1.4. The bicycle parking requirement will be determined based on the number of motor vehicle parking spaces which have been permitted by the Board of Appeals or Arlington Redevelopment Board, as applicable. The requirements of this section may be modified by the applicable Board if it finds that for the use and location, a modification is appropriate and in the best interest of the town.~~
- B. ~~When bicycle parking is required, there will be one bicycle parking space per 15 motor vehicle spaces under Section 6.1.4. The computed number of bicycle parking spaces will be rounded up to the nearest whole number of bicycle spaces. Bicycle parking spaces shall be provided in addition to motor vehicle parking spaces.~~
- C. ~~When bicycle parking is required, there will be a minimum of two spaces provided, and not more than 20 bicycle spaces will be required at a single site.~~
- D. ~~A bicycle rack or bicycle storage fixture or structure shall accommodate a bicycle six feet in length and two feet wide. Bicycle racks or storage fixtures must be secured against theft by attachment to a permanent surface. Bicycle parking apparatus shall be installed in a manner that will not obstruct pedestrian or motor vehicle traffic.~~
- E. ~~To the extent feasible, bicycle parking shall be separated from motor vehicle parking to minimize the possibility of bicycle or auto damage.~~
- F. ~~The following uses are exempt from bicycle parking requirements: places of worship, cemetery, funeral home, automotive repair shop, car wash, or gas station.~~
- A. Bicycle parking shall be provided for any new development or a change of use. Bicycle parking is also required for building expansions or conversions, except where the difference of bicycle parking required for the new building and the bicycle parking for that would be required for the existing building under this Section equals fewer than 2 bicycle parking spaces. The Board of Appeals or the Arlington Redevelopment Board, as applicable, may modify the requirements of this Section based on specific conditions unique to the proposal.
- B. Bicycle parking as required by this Section refers to the accessory storage of bicycles (which may include trailers or other customary accessories) in a secure manner that allows for quick and convenient access, storage, and removal of the bicycles by users who are making trips to or from the associated principal use. Bicycle parking shall be maintained exclusively for the parking of bicycles and not for the storage of other objects unrelated to bicycle use or for other purposes, as long as the use exists which the facilities were designed to serve. Bicycle parking facilities designed in accordance with this Section shall be available for use at all times when the

associated principal use is in operation, except when access may be restricted for necessary maintenance from time to time.

C. When bicycle parking is required long-term and short-term bicycle parking spaces shall be provided:

- (1) Long-term bicycle parking shall be intended primarily to serve residents, employees, and other persons who would require storage of a bicycle for a substantial portion of the day, for an overnight period, or for multiple days; however, it may serve other bicycle users as needed. Long-term bicycle parking is typically located within an enclosed, limited-access area designed so as to protect bicycles from precipitation and from theft.
- (2) Short-term bicycle parking shall be intended primarily to serve visitors, such as retail patrons, making trips of up to two hours to a particular use; however, it may serve other bicycle users as needed. Short-term bicycle parking is typically located in a publicly accessible area near pedestrian entrances to the use they are intended to serve.

D. The minimum number of bicycle parking spaces shall be as set forth in the following table. The computed number of bicycle parking spaces will be rounded up to the nearest whole number. Bicycle parking spaces shall be provided in addition to the off-street parking space requirements of Section 6.1.4.

- F. Bicycle parking designed in the following manner shall not be permitted, unless otherwise allowed by the Special Permit Granting Authority upon a finding of unusual circumstances unique to the property:
- (1) Storage that requires bicycles to be lying down or requiring a kickstand to remain upright;
 - (2) Bicycles that must be hung with one or both wheels suspended in the air; or
 - (3) Bicycles that must be lifted off of the ground or floor without any physical assistance.
- G. The location of bicycle parking spaces shall comply with the following requirements:
- (1) Short-term bicycle parking shall be located within 50 feet of the main entrance of a building or no further away than the nearest off-street parking space, whichever is closer, with appropriate signage leading to the bicycle parking if not visible from the main entrance;
 - (2) Long-term bicycle parking shall be provided within the building containing the use that it is intended to serve, or within a structure that is no more than 200 feet from the main entrance of a building. Bicycle parking serving multiple uses or buildings may be pooled into a single secure area, enclosure, or facility;
 - (3) Bicycle parking must not require lifting bicycles off the floor or carrying bicycles up or down any steps or stairs; and
 - (4) While requirements in this Section may not be satisfied within individual residential dwelling units, residents may bring bicycles into their individual dwelling unit for storage.
- H. The requirements of this Section may be reduced as follows after a finding of the Special Permit Granting Authority that the characteristics of the use, structure, or facility makes the use of bicycles unlikely or would substantially reduce the use of bicycles:
- (1) For non-residential uses, up to twenty percent of the required long-term bicycle parking spaces or four spaces, whichever is greater, may be converted to short-term bicycle parking spaces; and
 - (2) For residential uses requiring six long-term bicycle parking spaces or fewer, the long-term bicycle parking spaces may be designed to meet the requirements for short-term bicycle parking spaces, so long as the bicycle parking spaces are covered to be protected from precipitation, are in a secure area, and are located on the same lot as the residential uses they serve.
